**Subject:** PFAS state conference call, January 19

Cathy, Ed,

Last month, I scheduled a conference call with all of our states to share knowledge about emerging PFAS issues. Here is the proposed agenda, which has been sent to the states for comment.

The states are interested in finding out about EPA's efforts, as well as comparing issues/best practices on PFAS issues in each state. I invited ORD to make presentation to set the level. We drew up this plan before Wolverine – it would be good to expand the agenda to summarize that cooperation, and give MDEQ a forum to present to its experience.

Note that it's set up to be led by the RA/DRA. Felicia can schedule a pre-brief with the PFAS & Wolverine teams for you.

Thanks,

Bob
